Dear Chairman and Ranking Member,

On behalf of the undersigned organizations concerned with government accountability and transparency, we are writing in support of the Access to Congressionally Mandated Reports Act, introduced by Representative Mike Quigley.

The Access to Congressionally Mandated Reports Act requires that any report required by statute to be issued to Congress and releasable under the Freedom of Information Act (FOIA) be posted on a website managed by the US Government Printing Office (GPO). The public will be able to search, sort and download all congressionally mandated reports for free. During the 112<sup>th</sup> Congress, the bill was passed by the House Oversight and Government Reform Committee by a voice vote and discharged by the Committee on House Administration.

Congressionally mandated reports contain a wealth of information that enable the public to better understand how well federal agencies are (or are not) fulfilling their respective missions, from ensuring the safety of our drugs and food supply, to protecting the environment, and monitoring the soundness of our financial institutions. Access to Congressionally Mandated Reports Act makes it easier for the public to find this information and use it to hold officials accountable for their actions.

We appreciate your time and attention to this issue, and urge that you pass the Access to Congressionally Mandated Reports Act. If you have any questions or would like to discuss this issue further, please contact Patrice McDermott, Director of OpenTheGovernment.org ([pmcdermott@openthegovernment.org](mailto:pmcdermott@openthegovernment.org) or 202-332-6736).
